

OIL GEOPHYSICAL PROSPECTING

CONTENTS

No.1—6, 1981

No.1

- The review of seismic exploration in the western part of Hua-Bei Basin
.....*Liu Song-wei* (1)
- Direct and inverse methods for seismic waves in layered medium
.....*Xu Zhong-ying* (18)
- Detecting stratigraphic parameters by the sign-bit velocity analysis
for multi-layered medium.....*Shao You-ying* (27)
- Electric spark coded source.....*Wang Qing-yuan and Chen Shou-shen* (43)
- The method of determining the depth of basement by gravity anomalies
.....*Chai Yu-pu* (55)
- Correlation comb filter for aereoelectrometer
.....*Li Mu-sun and Fei Zhen-yu* (64)
- The calculation for deconvolution of minimum entropy
.....*Wang Cheng-shu* (75)
- Spatial correction method in surface relief area
.....*Zhao Shang-wu* (81)
- Colour display technique for seismic section
.....*Wu Jian-guo and Yin Ba-jin* (87)
- A layout chart of slalom line.....*Zhou Shi-zhong* (96)

◀ANNOUNCEMENT▶

- The academic symposium of electric prospecting was held by SPGC..... (26)
- The academic symposium on the oil geology of the shelf of south China
sea was held in Guangzhou..... (74)
- Brief introduction of CNOGEDC instrument company..... (98)

No.2

- Diffraction depth migration.....*Xu Zhong-ying* (1)

The realization of ray depth migration.....	Wang Ji-min (9)
The true amplitude recovery of sign-bit seismic recording	Cheng Qian-sheng and Shao You-ying (24)
The property discrimination of apparent polarizability anomalies	Zhou Qiu and Chen Xiu-ru (37)
Straight ray method with varying velocity for spatial correction	Chen Guang-si (42)
The seismic facies analysis of delta and submarine fan	Zhao Xue-ping et al (51)
The interpretation of delta seismic facies.....	Lin Zi-qiang and Xiao Gui-ying (61)
The noises occurring on dune.....	Liang Xiu-wen (66)
A method for estimating signal-to-noise ratio.....	Dong Zhao-bin (70)
A method for identifying the horizons and determining the thickness of each layer for well-log.....	Yan Zhen-sheng (76)

◀DISCUSSION▶

Dip correction method in interval velocity calculation.....	Zhong Mu-zu (81)
---	------------------

◀NEWS IN BRIEF▶

The program for minicomputer's extracting and displaying frequency in- formation.....	Song Zhen-bang et al (23)
Brief introduction of CNOGEDC instrument factory.....	(50)
Succeeding in using China-made colouring liquid on GOULD-4800 static plotter.....	Yu Ye-yi, Ma Yu-yong (85)
Brief introduction about the Society of Petroleum Geophysicists	(86)

◀ANNOUNCEMENT▶

Joint Academic Meeting of Chinese and American Geophysicists will be held in Beijing.....	(56)
--	------

No.3

The problem in performing migration after stack by integral method	Qian Rong-jun (1)
A tentative idea on the direct and inverse methods for solving 2-D elastic wave field by finite element method	Yang Bao-jun and He Qiao-deng (6)
The principle and application of sign bit processing method	Wu Lie-xu (16)
A study on experimental methods of 3-D multilayer model in air medium	

.....Zhao Hong-ru and Liu Bao-cheng	(25)
The methods of seismic exploration on the Jiang-Han plain	
.....Du Ya-xuan	(35)
A brief introduction of seismic cord source test.....Zhu Tao	(43)
Normalized total gradient method of gravity.....Xiao Yi-ming	(47)
Discussion on the zero correction circuit of main amplifier	
.....Wang Dong-hui	(57)
Audio-frequency magneto-telluric method and the direction in future study	
.....Chen Wen-hua	(62)
◀DISCUSSION▶	
A comment on the wave equation migration method.....Ma Ming-de	(75)
How to take Z_0 value in curved ray method.....Zhang Bing	(78)
◀NEWS IN BRIEF▶	
Brief introduction about the Society of Petroleum Geophysicists.....	(82)
Brief introduction of CNOGEDC instrument factory.....	(VI)
◀ANNOUNCEMENT▶	
Joint Academic Meeting of Chinese and American Geophysicists will be held in Beijing.....	(61)

No.4

Wave equation phase displacement migration.....Zhang Shu-lun	(1)
Interpolation in frequency domain.....Yu Shou-peng	(15)
A method for extracting wavelet.....Cha Zhong-qi	(27)
Automatic statics by twice correlating method.....Zeng Hao	(37)
To improve seismic data processing technique.....Sun Ting-ju	(44)
The electrode structure of marine electric spark.....Zuo Gong-ning	(56)
Ill-conditioned inversion of magneto-telluric sounding curve	
.....Wu Guang-yue and Wang Tian-sheng	(63)
A supplement to filling zero in FFT.....Zhu Guang-ming and Wu Lu	(75)
A brief introduction to digital geophone character tester.....Wang Zun-rang	(79)
Several methods for eliminating 50Hz high voltage electricity interference	
.....Zhou Nan	(84)
Calculating template for determining thick board body in 2-D.....Li Ji-lin	(87)
An example of interpreting oil and gas by using low velocity anomalies	
.....Pan Yao-jia	(91)
Data automatic processing on a minicomputer.....Jiang Zhong-xin et al	(92)
◀NEWS IN BRIEF▶	

Brief introduction about the Society of Petroleum Geophysicists (94)

◀ANNOUNCEMENT▶

Joint Academic Meeting of Chinese and American Geophysicists will be
held in Beijing..... (36)

The meeting for exchanging experience of seismic exploration in Northwest
China was held in Wulumuqi..... (55)

The First Academic Conference of Sichuan Oil Geophysicists held in Nan-
chong (74)

Methods of Seismic prospecting in Mountainous areas discussed in Kunming (78)

The Ministry of Petroleum Industry held an information work meeting of
geophysical prospecting in Hangzhou..... (78)

No.5

The phase spectrum and it's calculation.....Yu Shou-peng (1)

Solving seismic wave equation by finite element method.....Cui Li-ke (15)

The automatic identification of wavelet phase characteristic and the deter-
mination of optimum Wenner filter operator
.....Liang Jie and Zhou Xing-yuan (23)

The application of maximum variance norm deconvolution.....Shao Yu-hai (30)

Exploring channel sand body by seismic method.....Dong Fan-lin et al (41)

Estimating the reserve of a fractured reservoir—An application of seis-
mic sections.....Xu Zhong-ying (48)

The Seismic reflection character of igneous rock.....Wang Huai-ji (56)

The interpretation method for electromagnetic anomaly.....Li Ming (64)

On the spark source for marine seismic exploration
.....Huang pei-zhi and Chen Shou-shen (74)

◀DISCUSSION▶

A new idea of seismic exploration instrument—Optical fibre transmitting
digital seismograph.....Wang Dong-hui (84)

The study on anti-alias filter in data acquisition system
.....Zhang Zai-lu (92)

◀ANNOUNCEMENT▶

Joint Academic meeting of Chinese and American Geophysicists in Beijing
..... (22)

A content of the papers issued on the Joint Academic Meeting of Chinese
and American petroleum Exploration Geophysicists (98)

No.6

- Formation curvature and it's determination.....Zhao Chunming (1)
- Least-squares antifiltering and white.....Gao Deyin and Lin Zhongbai (11)
- Exploring reef facies reservoirs in the northern part of the South China
Sea.....Pend Jingcheng (18)
- The theory of exploring oil & gas reservoirs by employing transient elec-
tric field.....Wu Guangyue (27)
- The calculation of linear feltering coefficient.....Xu Chunhui (39)
- The rock density characters and the boundary surface determination in the
middle part of Jiangxi province.....Yue Caiwu (50)
- The designs of digital shift filter and noise filter.....Liu Yongdong (59)
- The spurious resonance of seismic detector.....Zai Shiliang et al (64)
- Digital geophone parameter detectors.....Cheng Jingzhi et al (68)
- Developments in exploration geophysics, 1975-1980.....Robert B. Rice et al (75)
- A good beginning.....Hsu I chi (91)

◀DISCUSSION▶

- Automatic lineup static correction and reasonable trace gather weighting
.....Yang Zhikai (93)
- A suggestion on improving seismic exploration in Yunnan, Guizhou and
Guangxi provinces.....Zhou Shizhong (97)
- CRP shifting and reflector occurrence distotion.....jiang Zhne (103)

◀NEWS IN BRIEF▶

- The newly developed geophone state tester..... (102)

◀ANNOUNCEMENT▶

- The second annul meeting of the Chinese Petroleum Society was held in
Changsha (63)
- Contents, No.1—6, 1981 (106)
