

OIL GEOPHYSICAL PROSPECTING

No.1—6, 1984

CONTENTS

No. 1

- Array depresses and distorts some effective seismic reflections
*Li Qingzhong and Chen Zujun* (1)
- An effective method for obtaining deep weak reflections in desert
 areas.....*Huang Hongze*(21)
- Variable continuation step applied to phase shift migration
*Jiang Zhongji* (34)
- Solving for the root of difference deconvolution operator by single
 valued iteration method.....*Wang Weihua* (40)
- Plane wavefront section and its migration.....*He Yuchun* (49)
- Three methods for colour displaying interval velocity.....*Sun Fulai* (53)
- The digital processing of d.c. electrical sounding curve.....*Zhang Xiyuan* (58)
- EXPERIENCES •
- A study on PC sandstone body in DP depression.....*Xu Shaoling* (71)
- Bright spot in conventional seismic section.....*Wang Liangquan* (80)
- The analysis of BZ28-1 buried subwater alluvial fan.....*Jiang Xijiang* (87)
- The correction of coordinates corresponding to the velocities of
 dipping reflectors.....*Ma Yongsheng* (94)
- CONTENTS OF OTHER GEOPHYSICAL JOURNALS •
- «Geophysics», Vol.48, No.6, No.7, 1983..... (98)
- «Geophysical Prospecting for Petroleum», Vol.22, No.3, 1983..... (98)
- NEWS IN BRIEF •
- JDS-1 static scope..... (33)
- NEW BOOK •
- Elastodynamics.....*A.C.Eringen, E.S.Suhubi* (39)
- NEWS •
- The Ministry of Petroleum Industry, 4th Geophysical Information

Meeting, Wuhu, Anhui..... (57)

No.2

Wave equation modeling in 2D multilayer medium with varying
velocity.....Zhu Yanyong (99)

The development of digital seismic exploration systems.....Deng Kequan (108)

Minimum phase transform used to make homomorphic deconvolution
.....Hu Qiyu (126)

Kalman filtering theory applied in seismic data processing...Ma Zhenxing (140)

Results of a detailed gravity survey in a maturely explored area
.....Wang Yichang and Wan Jinglian (148)

Suppressing multiples by 2D filtering-stacking method
..... Zeng Hao and Liu Yiqiang (156)

On pseudo signal response of geophone.....Hu Shiyue and Wu Shaoji (163)

Parasitic resonance of geophone and the test technique...Dai Shiliang et al (168)

• EXPERIENCES •

Parallel arithmetic method for digital filtering.....Wang Honglin (172)

Solving for bordering function by smoothing method.....Ying Haining (175)

Implementation of 45° difference migration.....Liu Zhifan (179)

Error analysis in mapping shallow dipping beds by refraction methods
..... Chen Yuce and Xie Fen (184)

The application of digital seismograph SDZ-751 locate the failures
by itself..... Chen Siwei (190)

• INFORMATION •

The introduction of EAEG activities in 1982..... (139)

• NEWS •

Chief geophysicist Wang Gangdao died..... (191)

CPS and SEG joint symposium on seismic interpretation, Zhuoxian
County..... (191)

No.3

Developments of offshore seismic exploration.....Xie Jianming (193)

Frequency reinforcement filtering.....Yu Shoupeng et al (200)

Wavelet processing before stack.....Fu Caifang (210)

Continuation method for near surface corrections.....	Deng Fuqiu et al (224)
Reflection configurations and deposition of alluvial fans.....	Qu Jie (239)
The application of normalized gravity gradient in hydrocarbon exploration.....	Xiao Yiming and Zhang Linxiang (274)

Acquisition, processing and interpretation of P-SV converted waves	Ding Mingtang (255)
Application of residue interval velocity contours.....	Bian Guozhu (261)

• EXPERIENCES •

An approach of zero phase deconvolution.....	Song Xixiong (266)
The realization of deconvolution by Burg method.....	Wang Weihua (272)
A simple method of calculating v_0 , β values.....	Wang Shungen et al (276)
A brief discussion on inferior velocity spectrum.....	Xin Bing (279)
The explanation and elimination of a strip anomaly on seismic section	Chen Deyou and Pan Jiarui (281)
The improved start of ERC-10 static oscillograph.....	Jiang Zuqi (283)
Static oscillograph used determine the acceleration of tape transport	Tian Kaixi et al (285)

• CONTENTS OF OTHER GEOPHYSICAL JOURNALS •

《Geophysics》, Vol.48, No.10, No.11, 1983.....	(289)
《Geophysical Prospecting》, Vol.31, No.6, 1983.....	(289)

• ABSTRACTS •

American paper abstracts published on CPS and SEG joint seismic interpretation symposium.....	(290)
--	-------

• NEWS IN BRIEF •

Call for papers for the 20th anniversary of the Oil Geophysical Prospecting...	(238)
CPS and SEG joint symposium on seismic interpretation, Zhuoxian.....	(246)
Automatic seismic plotting program of NOVA computer is qualified.....	(278)
Committee of Geophysical Exploration, China Petroleum Society, 3rd Annual Meeting, Zhuoxian.....	(284)

No.4

The application of maximum entropy theory to seismic data processing	Qian Shaoxin et al (295)
FFT principle used to compute $4N$ real numbers by N complex transform	Zhong Yonggen and Zhan Wendao (307)
The experiment on Claerbout equation inversion...	Zheng Xianzhong et al (314)
Nonlinear sweep.....	Harry Mayne (321)

The acquisition, processing and application of VSP data.....*Jing Dawei* (329)
 The present situation and prospect of using manifold seismic waves in
 China's energy resource exploration.....*Wang Weijia* and *Ou Qingxian* (335)
 A statistical method used for predicting rich hydrocarbon zones

.....*Gao Ruzeng* (343)

Computing 2D magneto-telluric sounding curve by twice interpolation
 triangle finite element method.....*Hu Jiande* and *Cai Gang* (358)

The choice criterion of line integral survey grid for magneto-
 electrotelluric exploration.....*Huang Zhongliang* (368)

• EXPERIENCES •

The method for suppressing secondary waves and its effect
*Chen Fengqing* and *Sun Lianjin* (371)

The ground survey of 3D seismic exploration.....*Zheng Daofeng* (377)

• DISCUSSIONS •

The interpretation of Selibuya Fault.....*Wang Rende* (385)

Further discussion about filling zeros in FFT.....*Bu Zhaolin* (394)

No. 5

The review on the reinforcement of seismic exploration in eastern China
 *Yuan Bingheng* et al (397)

The appearance of dipping plane interface on seismic sections.....*Lou Xiji* (405)

Study of experimental methods of 3D liquid seismic model
*Zhang Jianping* et al (414)

Spectra decomposition for surface anomaly compensation.....*Tian Xitai* (423)

The application of fuzzy mathematics to automatic adjustment
 of seismic velocity spectra.....*Tong Zengxiang* et al (437)

Structural mapping from migrated sections.....*Liu Sugeng* (453)

The practical application of Faust formula.....*Fu Tongqing* (460)

Calculation of vertical component of 2D gravitational field
 and second derivative of gravitational potential by finite
 element method *Xu Shizhe* (468)

High speed analog to digital (A/D) converter formed with
 operational amplifiers.....*Wang Benji* (477)

• EXPERIENCES •

Multiple suppression with weighted stack method..... *Zhu Genfa* (484)

ZY-80 spark source..... *Liu Zhimin* et al (488)

The correction for sea water pressure..... *Zhou Changxiang* (491)

The application of the transit time of sonic logging..... *Li Ming* (495)

The method for detecting start-stop time and tape speed for

SN338 digital seismograph.....*Su Shunqing* (496)

3D data wave equation migration in frequency-wave number domain

..... *He Chaoguan* (499)

CMP stacking apparent depth section*Lou Xiji* (511)

Seismic interpretation of Jingqiu anticline*Sha Xijian* (519)

Synthetic sonic log section applied in Jiangnan prospect

..... *Yang Hui et al* (530)

The effect of vertical seismic profile in North Bay water ... *Xie Chaoen* (537)

Converted waves in seismic record.....*Li Qingzhong* and *Gu Hanzhang* (547)

The application of directional ellipse filter to gravity data processing

..... *Wei Xianqi* (556)

The instantaneous spectrum method for magnetotelluric data processing

.....*Chen Leshou* and *Bai Gaixian* (567)

• EXPERIENCES •

Eliminating the secondary change of bed thickness by translational

iteration..... *Wang Rende* (575)

Fixing the shotpoint identification failure—reading head breakdown

..... *Mao Zhizhong* (578)

A method for removing the block in the jet of colour plotter

.....*Xu Xiwei* (581)

• DISCUSSION •

A discussion on the seismic frequency band used in carbonate rock area,

Hunan Province.....*Cai Dajiang* (582)
