

OIL GEOPHYSICAL PROSPECTING

No.1—6, 1989

CONTENTS

No.1

- The forward modeling of seismic wave field using high-order finite difference method.....*Liu Zhimin* and *Bao Jieshan* (1)
- Velocity analysis algorithm in seismic tomography.....*Du Shitong* (6)
- Noise suppression using vector resolution method.....*Wang Hongwei* (16)
- Computer produces zero-offset vertical seismic profile
.....*Li Baoyan* and *Luo Zhengpei* (30)
- Polarization projection method and its application to VSP data
.....*Wu Dali* and *Luo Yi* (36)
- On the design of non-zero offset VSP layout.....*Chen Xinping* (43)
- The research on reservoir in Shanzhao area in Songliao basin
.....*Guan Yejun* (55)
- The method for making stratigraphic compaction correction with the use of logging and seismic data.....*Wu Fengliang* (68)
- Interface inversion using U function calculated with fast convolution
.....*Yang Zaichao* (80)
- EXPERIENCE •
- The imaging of complex seismic section and its interpretation example
.....*Li Mingzhong* (88)
- The prediction of limestone basement in B basin with the use of gravimetric data.....*Wang Yichang* (96)
- Analysing the cause of complicating the seismic data in overthrust belt with the aid of model test.....*Zheng Yongle* (102)
- Migration using acoustic equation velocity inversion.....*Wang Ning* (108)
- CONTENTS OF OTHER GEOPHYSICAL JOURNALS •
- Geophysics*, Vol.53, No.7, No. 8, 1988 (116)
- Geophysical Prospecting*, Vol.36, No.6, 1988 (117)
- Geophysical Prospecting for Petroleum*, Vol.27, No.2, 1988..... (117)

• NEWS •

- Ist international academic discussion on both the geodepression structure
and the metallogeny, Changsha (107)
- Academic discussion on China gas exploration, Hangzhou..... (110)
- Both seismic finite-element numerical modeling method for 2-D viscous
elastic medium and the application software have passed the appraisal... (114)
- A new seismic source for coalfield exploration—Land Gas Gun..... (115)
- Chinese and American experts, joint conference on the geophysical explo-
ration techniques suitable for Taiyang prospect in North-Bay basin in
South China Sea, Zhanjiang..... (115)
- 6th conference on oil journal work, Beijing..... (117)
- Contributors..... (118)

No. 2

- Constant phase correction Zhou Xingyuan (119)
- The discussion on some problems of τ - p transform and its application
to the inversion of sonar buoy data Jiang Zerong et al (130)
- Monitoring the thermal recovery with the use of seismic method
..... Wang Zhijing and Amos Nur (144)
- The extraction of main characteristic parameters of seismic wave
..... Huang Deji (155)
- A practical finite element method for making seismic numerical model
..... Ke Benxi (166)
- Fourier frequency spectrum with time parameter t^* and its application
..... Chen Genmeng and Zhao Hongru (175)
- Automatic residual static correction using first arrivals before NMO
correction..... Li Luming (179)
- The interpretation of faults in Dongpu depression..... Liu Qiusheng (187)
- The datuming of gravitational potential fields with the use of iteration
method..... Yang Zaichao (200)

• EXPERIENCE •

- AZF-88 accelerometer used in seismic vibrator Lian Suiren et al (208)
- Record format conversion technique for ES-2420 seismograph..... Chen Zhu (211)
- Improving the accuracy of VSP first arrival pickup with the use of
regression method..... Gu Peicheng and Lu Guihe (217)
- VSP effect at well Qi-1..... Gao Chao (223)
- Overthrust interpretation using the horizontal second derivative of

gravimetric data..... Wang Yichang (229)

• DISCUSSION •

The method for obtaining the fault-block sealing coefficient R_T ——A

discussion with Mr. Liu Mingyi.....Han Guangyu (232)

石油物探情报协作组召开情报交流 及第七次工作会议

石油物探情报协作组情报交流及第七次工作会议于1989年9月16日至22日在山东省东营市牛庄召开。出席会议的有物探公司、石油院校及石油物探装备制造厂家等44个单位的76名代表。胜利石油管理局科委和石油地球物理勘探局有关的领导出席了开幕式并讲了话。

这次会议共收到28篇物探情报专题调研报告,其中“非零井源距VSP”、“高分辨率”、“横波分裂”、“道内插”、“开发地震”、“全息地震”、“储层预测”、“浅海三维采集”等20篇报告在大会上进行了宣读。这些报告的特点:一是发挥了情报超前的作用,二是和生产、科研结合密切,其内容丰富、涉及面广,对国内外新技术、新方法的优点和存在问题都作了比较全面的分析,为今后在推广应用中少走弯路起到了很好的借鉴作用。

会议期间,在总结石油物探情报协作组及各成员单位两年来情报工作的基础上,评选出物探情报工作的先进集体、先进个人和优秀报告,同时,与会代表还就今后的情报工作改革及专题情报调研与生产和科研的关系等问题进行了广泛深入地讨论。

秦永禄
