

OIL GEOPHYSICAL PROSPECTING

Vol. 27 No. 1~6 1992

CONTENTS

No. 1

Velocity regularities of P and S-waves in formations	<i>Li Qingzhong</i> (1)
Method for suppressing the non-surface-consistent noises	<i>Ling Yun and Guo Xiangyu</i> (13)
Discussion on some problems involved in transition from isotropic medium to anisotropic medium	<i>Liu Yanqiang and Dong Minyu</i> (29)
Seismic waves generated by spherical-cavity source in laterally isotropic medium	<i>Zhang Zhongjie et al</i> (45)
Determination of lateral interval-velocity variation using travel time inversion	<i>Zhou Xixiang et al</i> (59)
DMO and stacking in time-slowness domain	<i>Jiao Junru</i> (73)
Least-square dip decomposition and trace interpolation	<i>Wang Zhenhua</i> (84)
Gapped smoothing error deconvolution in lattice structure.....	<i>Zhang Liang et al</i> (94)
Seismic facies analysis using standard facies model	<i>Wu Yuanyan et al</i> (101)
Wrench characteristic of Hexiwu east master fault and its relation to hydrocarbon exploration	<i>Huang Zhongfan</i> (112)
Factors controlling the fault occurrences in Tangzhuang three-dimensional exploration area in Dongpu depression	<i>Jia Zhibin</i> (120)
• EXPERIENCE •	
Researches on seismic record polarity and horizon identification.....	<i>Wang Kening</i> (130)
Application of multi-layer inversion of gravity anomaly	<i>Yang Hui</i> (140)
• DISCUSSION •	
Review of accurate and fast DMO algorithm—A discussion with Mr. Fang Kangan	<i>Wang Nenghe and Xu Jianwen</i> (147)

'92 International Conference on Intelligent Information Processing and System, Oct. 30 to Nov. 1, 1992, Tsinghua Campus, Beijing, China	(28)
Academic conference on borehole-to-borehole seismic technique, Zhuozhou	(153)
Contributors	(154)

No. 2

- Fitting solution of wave equation: the optimum seismic migration... *Zhao Zhenfei* (155)
- Three-dimensional P-R splitting migration using directional derivative method
..... *Wang Zhenhua* (174)
- Finite difference modeling of P-wave field in two-phase medium *Guo Jian* (182)
- Truncation error analysis at optimum interrelation of discrete parameters in
difference migration *Sun Jianguo et al* (200)
- An inverse method for calculating the velocity of seismic wave in two-dimensional
layered medium *Cong Wenxiang and Sun Haozhi* (212)
- Suppressing noises in stacked seismic data with the use of Radon transform
..... *Zhong Sen* (217)
- Point source in finite element seismic modeling *Fan Shurui* (223)
- Q-value inversion by nonlinear parameter fitting method.....*Liang Guanghe et al* (230)
- A method for wavelet estimation and deconvolution *Xiong Zhu* (235)
- Preliminary anisotropy research using S-wave velocity: An application of multiwave
exploration data *Deng Fuqiu and Tang Jianhou* (247)
- Expert system for seismic facies interpretation in continental fault basin
..... *Liu Zhen and Zhang Wanxuan* (261)

• EXPERIENCE •

- Tomographic image of curved rays in borehole-to-borehole seismic survey
..... *Zhang Shulin et al* (270)
- Method for predicting opening-fracture zone in carbonate buried-hill reservoir in
Xinanzhen area *Tang Changbiao et al* (279)
- Seismic detection experiment of steam-flooding viscous oil recovery
..... *Wang Xinhong et al* (294)

- Profound condolences to famous geophysicist Mr. Gu Gongxu (181)
- Data preprocessing system for personal-computer plotting in geophysical exploration
..... (211)
- Chinese "Petroleum Literature Data Base" has past Ministry-level appraisal (229)
- Warm congratulations on the eightieth birthday of professor Weng Wenbo (278)
- Brief Introduction of "Geophysics Development" (293)
- Contributors (304)

No. 3

- Some new development of AVO technique *Zheng Xiaodong* (305)
- Construction of one-way wave equation and the application *Ke Benxi et al* (318)
- A method for improving the stability and accuracy of fast inversion of
one-dimensional wave problem *Shan Shizao et al* (331)
- Fast f - k forward modeling of seismic data *He Zhenhua et al* (336)

Tactic for inversion of one-dimensional wave equation	<i>Zhao Zhenfeng and Liu Yingxi</i> (343)
Surface-consistent statics using simulated first break	<i>Ling Yun</i> (351)
Surface-consistent statics using second order difference and maximum stack energy	<i>Guo Jiuying et al</i> (361)
Stratigraphic division by Q nonlinear mapping	<i>Liu Lilin</i> (371)
Boom and future of radioactive prospecting for oil and gas	<i>Qiu Yuande et al</i> (378)
• EXPERIENCE •	
Prestack mid-value filtering	<i>Xu Changlian</i> (387)
Applying the AVO information of P-wave and converted shear wave to shallow gas detection	<i>Xiong Jinliang and Zeng Hao</i> (379)
Comprehensive processing system for surface survey data in three-dimensional oil seismic exploration	<i>Xi Ruifeng et al</i> (404)
Iterative curved ray method for forming angular trace gather	<i>Ge Wenjun</i> (410)
• DISCUSSION •	
Premise for using AVO characteristic stack section	<i>Yang Fusheng</i> (420)

No. 4

Inversion of instantaneous equivalent absorption coefficient and its application	<i>Wang Weihua</i> (431)
A new varied continuation step method in seismic migration by phase shift plus interpolation	<i>Tu Guotian</i> (444)
Static correction using near surface model	<i>Zhong Deying</i> (454)
Application of nonlinear inversion to residual static correction	<i>Xun Hao and Li Zhiming</i> (464)
GRT migration of VSP data	<i>Wang Yong and Li Chengchu</i> (474)
Curved surface continuation of three-dimensional potential field data by using finite element moment method	<i>Li Jiakang</i> (482)
Using boundary element method to separate out gravity anomaly or magnetic anomaly	<i>Jiang Xiaodian</i> (493)

Constructing the balanced section in a compressional basin by using seismic data
 *Mou Zhonghai* (498)

• EXPERIENCE •

Correction method for sonic logging trace from deviated well
 *Wang Xuejun and Ze Xiaoping* (505)

Making of horizontal-well synthetic seismograms *Liu Zhuanhua* (513)

AVO analysis and elastic parameter inversion *Fang Kangan* (518)

Maximum offset choice using AVO property *Xiong Jinliang* (522)

Three-dimensional fault drawing *Li Dongan* (525)

Effect of converting two-dimensional data into three-dimensional data
 by interpolation *He Ninglan* (536)

A method for trap factor calculation and its effect *Zhao Xinguo* (545)

• DISCUSSION •

Theory, effect and restriction of frequency-wavenumber domain DMO using
 time-axis logarithmic transform *Chen Xinping* (556)

No. 5

Finite difference modeling of acoustic wave in two-phase and elastic media
 *Guo Jian and Ma Aizhen* (565)

Interborehole inverse scattering tomography using maximum entropy
 *Yi Feng and Wei Yu* (572)

Inversion of velocity and density of layered medium by characteristic integral
 in τ - p domain *Liu Zhenkuan and Bao Jishan* (583)

Seismogram synthesis using Gaussian beam technique
 *Cao Jianzhang and Zhu Guangming* (593)

Hartley transform and its properties *Gan Lideng* (605)

Data interpretation of joint compressional and shear wave survey in mountainous
 region *Deng Fuqiu* (617)

Modeling of SH wave field in elliptic anisotropic medium *Liu Yanqiang* (630)

Improvement of signal/noise ratio of seismic data in f - x domain *Zhang Shan* (648)

Random noise elimination using f - x domain prediction *Guo Jiuying et al* (655)

Interval velocity analysis using wave field continuation *Zhuo Zhusheng* (662)

Improving the effect of reducing magnetic anomaly to pole in low magnetic latitude

area by using directional high cut filter.....*Wu Jiansheng* and *Wang Jialin* (670)

• EXPERIENCE •

The application of covariance matrix characteristic value to data interpretation
..... *Wang Jiaxu* (678)

Method for analysing geological property of seismic complex waves
..... *He Longyun* (681)

Digital method for automatically interpreting sedimentary enviroment by using
logging data *Xiao Lizhi* (688)
