

OIL GEOPHYSICAL PROSPECTING

Vol. 28 No. 1~6 1993

CONTENTS

No. 1

Comparison between Borm's approximate tomography and Rytov's approximate tomography	Wu Lu et al (1)
Research on subtle layer in shallow refraction survey	Wang Ximing(17)
Tomography of Two-dimensional medium velocity by refraction wave	Wu Jianchenget al (27)
A method for fast and accurately computing the common conversion point locus	Zhou Zhusheng and Wang Weihua(37)
Source processing in finite difference wave equation modeling ...	Zhang Linbin et al (46)
Velocity model in three element medium	Zhu Xiangdong et al(51)
Automatic lithology identification using artificial nervous network	Yu Jianhua(59)
Automatic logging curve comparison using optimum ordered multielement match	Liu Ziyun and Wang Xianggong(67)
Lateral reservoir prediction using waveform analysis for bandlimited reflection waves	Chen Jizhong et al (73)
Geological meaning of sand or shale content of seismic horizon and points for attention in its application	Pang Xiongqi et al (84)
• EXPERIENCE •	
Application of Hartley transform to numerical modeling	Miao Linchang(91)
A method for evaluating raw seismic records	Li Zhangming and Xu Wenrong(97)
Horizontal well design usign seismic data	Liu Chuanhu et al (105)
• SUMMARIZATION •	
How to produce a satisfactory migrated seismic section	Xiong Zhu(112)
• EDITOR WRITER READER •	
A guidance to writers	(120)

No. 2

Ray depth migration in velocity varied medium	Wang Yong et al(127)
Phase-shift migration of prestack elastic wave data...	Yao Dezhong and Zhou Xixiang(133)
Restrained inversion of reservoir thickness	Ji Ping(138)

Quantitative error analysis in elastic wave inversion	<i>Zhang Jianfeng</i> (145)
Iterative algorithm for joint inversion of gravimetric and seismic data in layered medium	<i>Wang Hongnian et al</i> (153)
High effective forward and inverse τ - p transform algorithms and τ - p hyperbolic velocity filtering in frequency domain	<i>Tu Guotian</i> (166)
Processing of seismic data collected in joint compressional and shear wave explorations in mountainous district	<i>Deng Fuqiu et al</i> (178)
Noise-removing processing for prestack seismic data ...	<i>Zeng Hao and Fan Xiaodong</i> (190)
Processing methods for low signal/noise ratio seismic data in ZL sandbar area	<i>Li Guiyuan</i> (199)
Interconversion between linear source resistivity and point source resistivity with the use of matrix method	<i>Ye Shunxiang</i> (207)
• EXPERIENCE •	
Zero-offset VSP synthesis using convolution form ...	<i>Wang Yanchun and Duan Yunqing</i> (212)
Signal-retained noise elimination using vector method	<i>Wang Yong et al</i> (219)
Relative static correction using first arrival stack... ..	<i>Zheng Hongming and Xiao Gexi</i> (226)
Borehole diameter correction for acoustic and density logging data	<i>Liu Guoqiang and Tan Tingdong</i> (232)
• REVIEW •	
Future developments in China's oil geophysical exploration	<i>Li Qingzhong</i> (241)
