

OIL GEOPHYSICAL PROSPECTING

Vol. 29 No. 1~6 1994

CONTENTS

No. 1

- Migration algorithm family of equation $P_{rr} = -\frac{v^2}{2}P_{xx}$ Zhao Zhenfei(1)
- Wave impedance inversion using 1-D wave equation and the effect
..... Li Qinxue et al(11)
- Elastic wave reverse-time migration using Hartley transform Yao Dezhong et al(19)
- 3-D wave equation forward modeling by inverse migration Chen Biyuan et al(23)
- An accurate method for finite-element elastic wave field modeling ... Zhang Jianfeng(29)
- k - x and τ - x wave field transforms and their preliminary applications ... Wang Chengli(37)
- Principle and method for making seismic structural map by stacked migration section
..... Qin Zheng and Zhu Kean(48)
- Trace-gathering wave field separation of VSP data collected using different geophone
intervals He Xinghua and Deng Jinhua(59)
- Coefficient recursion relation for dipole fields in multilayer medium
..... Xu Jianhua et al(69)
- Frequency spectrum determination for near-source seismic waves in steep limestone
structure cropping area in east Sichuan, and the effect analysis..... Xiao Fusen et al(75)
- Seismic stratigraphic researches on Carboniferous system in the Talimu basin
..... Wang Kening(84)
- Correlation sequence method for orderly sample clustering Cheng Qiansheng(96)
- EXPERIENCE •
- Application of time-dependent characteristic frequency analysis in stratigraphy research
..... Yao Jiangbo and Xiong Jinliang(101)
- TDT transformation Zhu Yanyong(106)
- Automatic seismic event pickup using artificial nerve network Yao Yao(111)
- Accuracy of CT core analysis Gu Benli(117)
