

OIL GEOPHYSICAL PROSPECTING

Vol. 30 No. 1~6 1995

CONTENTS

No. 1

- Seismic impedance chaotic-inversion for reservoir search *Chen Zhide et al*(1)
Steep-dip depth migration using time shift algorithm *Jin Shengwen et al*(11)
Three-dimensional prestack wave-equation migration using slant stack
..... *Li Canping et al*(18)
Constrained inversion using simulative annealing *Wang Shanshan et al*(27)
Thin-bed response in synthetic acoustic log *Yu Shoupeng*(36)
Ray tracing for seismic reflection wave *Zhang Linbin et al*(50)
Deriving a S-wave interval-velocity section from P-SV wave stack section
..... *Gan Yongzhong*(56)
DMO for P-SV and SV-P waves in f - k domain *Geng Jianhua et al*(62)
Velocity analysis and interpretation of P-SV wave ... *Li Luming and Luo Xingxian* (66)
Wave field transform based on parametric variable and its application
..... *Wang Chengli and Shang Xinmin*(75)
Seismic data compression using wavelet transform *Wang Zhenli and Li Yanda*(86)
Analysing the amplitude and frequency of reflection waves by GM(1,1)model
..... *Cao Hui*(91)
Research on removing noises in DC resistivity trielectrode gradient measurement
..... *Zhang Tianlun and Zhang Bolin*(100)

•EXPERIENCE•

- A method for synthesizing borehole-side 2D seismogram and the application
..... *Li Zishun et al*(111)
Application of neural network in seismic tomography *Lin Xiaozhu et al*(119)
Research on seismic cross section balance using palaeo-vertical method
..... *Xu Zhikang and Yu Xiaochen*(125)
Optimal design of deconvolution factor in induction log *Xia Kewen and Zhu Jun*(132)
Possibility of hydrocarbon accumulation discovery using high-accurate gravimetric
survey *Yuan Yepei et al*(139)

•CONTENTS OF OTHER GEOPHYSICAL JOURNALS•

- Geophysics*, Vol. 59, No7,8, 1994 (145)
Geophysical Prospecting, Vol. 42, No. 6, 1994 (145)
Geophysical Prospecting for Petroleum, Vol. 33, No. 3, 1994 (145)

•PERSONAGE•

- Geophysicist Zhu Guangming (insert 1)

•NEWS•

- Israeli PARADIGM Geophysical Corporation starts business in Beijing (61)
64th SEG Annual Meeting in Los Angeles (65)
Contributors (146)

No. 2

- Producing a normal-incident P-wave section by deletion fitting method;a processing technique for replacing horizontal stack *Li Qingzhong*(147)
- Fitted zero offset section and resolution *Yu Shoupeng* and *Cai Xiling*(168)
- Separating compressional wave from shear wave in surface seismic records *Zhang Guanquan* and *Zhou Hongbo*(181)
- Wave impedance inversion before stack *Tian Zhenping*(192)
- Gradient regularization method for numerical inversion of acoustic wave equation *Li Xiaojiang* and *Zhang Wenfei*(201)
- Attenuation of random noise in(f - x , y) domain *Guo Jiuying* et al(207)
- Forward seismic modeling by cellular automaton method *Yao Yao*(216)
- Petrotechnical Open Software Corporation and current development of its relevant technologies *Chen Qiang* and *Li Xiaolei*(223)
- Spline function method for forward and inverse problems of 2-D density interface *Wang Bingzhu* and *Wang Shuoru* (230)
- A new technique for potential-field data processing;small subdomain filtering *Yang Gaoyin*(240)
- Sequence stratigraphy analysis of carbonate series of Lower Palaeozoic group in the Talimu basin *Zhang Zhensheng* and *Liu Sheping*(245)

•EXPERIENCE•

- Seismic resolution improvement using wavelet analysis *He Guangming* and *Gao Ruzeng*(257)
- Predicting oil sand body in the Langgu depression by several pattern recognition methods *Ni Yi* et al(264)
- Pattern recognition improvement using K - L transform *Wu Dakui* (272)
- Application of mid-value filtering in lateral hydrocarbon prediction *Chen Zunde* and *Zhu Guangsheng*(277)
- A method for processing the converted-wave data whose signal-noise ratio is low *Tang Jianhou* et al(280)
- A method for deriving displacement pressure from seismic interval velocity *Jiang Zhenxue* et al(284)

•PERSONAGE•

- Geophysicist *Li Chengchu* (insert 1)

•NEWS•

- Shengli Oil Field,cross-borehole seismic test (191)
- CNPC Beijing Global Softwares Corporation,new product release,Beijing (239)
- Initial results of oil reservoir researches (271)
- Contributors (291)

No. 3

•CELEBRATION OF 30 YEARS' PUBLICATION OF OIL GEOPHYSICAL PROSPECTING•

- Going to twenty first century with successes *Ma Zaitian*(293)
- A yet higher goal at thirty *Lu Banggan*(294)
- A garden plot for academic exchange,and the guide to development of science and technology *Qian Rongjun*(296)
- Keeping the pioneering spirit to make new achievements *Chen Baohou*(297)

Zero-phase homomorphic deconvolution	Ling Yun et al(299)
Full 3-D random-noise attenuation	Li Guofa(310)
Dip-independent velocity pickup	Zhang Guanquan and Liu Faqi(319)
A new velocity analysis method based on Fourier transform	Liu Yang(329)
Revision of Tang Yingwu's wave theory in porous medium	Han Qiyu et al(337)
Surface-consistent phase correction in 2-D and 3-D domains	Guo Jiuying et al(345)
Forward modeling of full wave field in 2-D viscoelastic medium	Bi Yuying et al(351)
Log-constrained polynomial fitting extrapolation inversion of seismic data	Meng Xianjun and Du Shitong(363)
Estimation of P- and S-wave velocities by AVO inversion	Zhong Sen(373)
Examples of joint inversion of gravimetric and seismic data	Guan Xiaoping et al(379)
Wave velocity in reservoir-conditioned rock and its variation	Shi Xingjue et al(386)
Side-hole reference method for estimating the gradient anomaly of apparent resistivity	Zhang Tianlun and Zhang Bolin(392)

•EXPERIENCE•

Formation pressure prediction using restrained inversion of seismic data	Liu Huoxiang(400)
Analysis of planting error of three-component geophone	He Renhan et al(405)
A method for removing NMO correction lengthening	Zhao bo and Shi Zhengjun(417)
F-K filtering after NMO correction of common-shot trace gathers	Wu Zhanpei(422)
Hulunhu-area hydrocarbon resource prediction using gravimetric and magnetic data	Liu Shenheng and Zhu Chunsheng(424)

•REVIEW•

Development of three-parameter velocity analysis	Xu Changlian(430)
--	-------------------

Contributors	(442)

No. 4

•CELEBRATION OF 30YEARS' PUBLICATION OF OIL GEOPHYSICAL PROSPECTING•

Doing persistent efforts to make new contributions	Meng Ersheng(443)
Making new efforts to climb higher peak	Chen Junsheng(445)
Developing achievements and making new contributions	Huang Xude(447)
Geophysicists' good teacher and helpful friend	Dong Minyu(448)
Development tendencies of geology theory and exploration of oil and gas	Guan Defan(450)
Continuous pioneering and persistent improvement	He Qiaodeng(452)
High-order difference method for structure image of seismic reflection data	Fan Shangwu(454)

One-pass all-dip 3-D migration	<i>Sun Jianguo and Lin Boxiang</i> (465)
Acoustic impedance restrained-inversion by partial differential equation	<i>Luo Xingxian and He Zhenhua</i> (473)
Resolution and singularity of seismic trace	<i>Cao Yuming</i> (480)
Prestack noise reduction using(ω - x)-domain operator extrapolation	<i>Guo Jiuying</i> (487)
DLCDP method for the stacking and imaging of cross-borehole seismic reflection waves	<i>Jiang Zhenwu and Wu Lu</i> (495)
Prediction coding of acoustic exploration signals	<i>Wu Lenan</i> (505)
Application of laboratorial rock resistivity in electrolog data interpretation	<i>Wu Xiaoping et al</i> (509)
Experiment in equivalent anisotropy of thin interbedded medium	<i>Li Yue et al</i> (513)
Seismic data damage due to polarity inversion of 54° three-component geophone	<i>Xu Zhongda et al</i> (518)
Gravity inversion using weight-smoothed boundary element method	<i>Mao Xiaoping and Wu Rongyuan</i> (523)
Sequence stratigraphy and petrofacies palaeogeography of Carboniferous system in the Tarim basin	<i>Zhao Xiuqi et al</i> (533)
•EXPERIENCE•	
Effect analysis of gravity logging in Sichuan Province ...	<i>Li Huzhan and Ran Xuefeng</i> (546)
Time-space variant spectrum whitening of seismic data	<i>Fan Xiaodong et al</i> (550)
Minor fault interpretation using pattern recognition	<i>Cui Ruofei and Zhao Aihua</i> (556)
Inverted structural style in the Yingen basin	<i>Sun Zhihua</i> (567)
•CONTENTS OF OTHER GEOPHYSICAL JOURNAL•	
<i>Geophysics</i> , Vol. 59, No. 12, 1994; Vol. 60, No. 1, 1995	(570)
<i>Geophysical Prospecting</i> , Vol. 42, No. 7, No. 8, 1994; Vol. 43, No. 1, No. 2, 1995	(571)

No. 5	
•CELEBRATION OF 30 YEARS' PUBLICATION OF OIL GEOPHYSICAL PROSPECTING•	
Creating a good garden plot of geophysical exploration technique to advance the technique	<i>Zhao Huakun</i> (573)
Making still further progress	<i>He Zhenhua</i> (574)
Keeping initiative to progress forever	<i>Xie Jianming</i> (575)
Evaluation of <i>Oil Geophysical Prospecting</i> in 1994.....	<i>Liu Wenlin</i> (576)
Garrying forward the cause and forging ahead into the future	<i>Zhang Yingbo</i> (580)
The journal helps me to succeed in the cause	<i>Zhou Changxiang</i> (583)
Improving both seismic signal-noise ratio and resolution by vertical wavelet package transform and lateral polynomial fitting	<i>Liu Guizhong et al</i> (584)
Seismic wave modeling in anisotropic medium by Hartley transform ...	<i>Zhou Hui et al</i> (593)
Inversion of physical parameters of fluid-saturated porous medium ...	<i>Xu Wenjun et al</i> (602)
Linearized wave impedance inversion of stacked seismic data	<i>Yao Zhenxing et al</i> (609)
Structural shape restriction in three-parameter velocity analysis	<i>Xu Changlian</i> (615)
3-D velocity analysis	<i>Xu Bolin and Yang Zaichao</i> (623)

Interval velocity inversion by genetic algorithm	Zhang Houzhu et al(633)
Algorithm of fuzzy fractional-dimension and its application in reservoir recognition	Hu Yuanlai et al(645)
Hydrocarbon anomaly discovery using AVO characteristics of P-SV wave	Hu Zhongping(653)

Seismic wave simulation using finite difference	Wang Yun and Yang Huizhu(659)
---	-------------------------------

•EXPERIENCE•

Synthesizing three component VSP data by 3-D Gaussian beam method	Liu Xuecai et al(669)
Solving the closure problem of intersecting geophysical informations by nonlinear theoretical criterion	Ling Yun et al(681)
A method for successively separating out seismic signals in time domain...	Cao Yuming(688)
Joint trace interpolation in $f-k$ and $f-x$ domains	Li Guofa(693)
High-resolution noise suppression using optimized array filtering	Wang Xiaohua et al(702)
Linear noise reduction using noise energy equilibrium	Qi Li(711)

Contributors	(718)

No. 6

•CELEBRATION OF 30 YEARS' PUBLICATION OF OIL GEOPHYSICAL PROSPECTING•

Making continuous development to create new brilliant achievements	Zhu Guangming(719)
Advancing better the international academic exchange	Chen Qiang(720)
Scientific garden plot that facilitates development of oil geophysical techniques	Jiang Zhongxin(721)
OGP advances Chinese oil exploration techniques	Jiang Luquan(722)
Garden plot for cultivating young geophysicists	Li Wenlin(724)
Nonlinear waveform inversion in anisotropic medium	Zhou Hui and He Jiaodeng(725)
Inverse scattering solution of wave equation in linear viscoelastic medium	Yan Fusheng and Qian Shaoxin(736)
Fractal and chaotic characteristics of seismic data	Zeng Jinguang et al(743)
Zero-phase homomorphic deconvolution after 3-D stack	Wu Weikang et al(749)
Fast 3-D migration using phase shift plus interpolation	Zhou Fang(757)
Forward model for AVO-characteristic stack section and the application	Yang Shaoguo and Zhou Xixiang(772)
Instantaneous absorptivity detection and high-frequency noise elimination	Ling Yun et al(775)

Application of magnetotelluric sounding to hydrocarbon exploration in the Tarim basin	<i>Lu Xinbian</i> (788)
Estimating the optimum depth differences of microresistivity curves provided by six arm diplog	<i>Gao Chuqiao</i> et al(797)

•EXPERIENCE•

Multiple wave suppression using intertrace sequence regulation of seismic samples	<i>Xu Changlian</i> (803)
Application of neural network in reservoir correlation	<i>Hu Kezhen</i> et al(811)
Neural network BP modeling of the relation between thin bed thickness and amplitude & frequency	<i>Long Jiandong</i> (817)
Fracture prediction using fractal interpolation	<i>Wu Dakui</i> and <i>Gan Qigang</i> (823)
Application of GPS gravity method to accurate geophysical exploration...	<i>Zhang Chijun</i> (828)

•SUMMARIZATION•

Balanced section technique and seismic data interpretation	<i>Liu Guangyan</i> et al(833)
