

OIL GEOPHYSICAL PROSPECTING

Vol. 35 No. 1~6 2000

CONTENTS

No. 1

A new fast global optimization method for estimating static corrections	<i>Lin Yihua et al</i> (1)
3-D static correction using refraction wave	<i>Wang Yanchun et al</i> (13)
Common scattering point imaging and its application to low S/N 3-D seismic data processing	<i>Wang Yong et al</i> (20)
Spectrum modeling method and its application to seismic resolution improvement	<i>Sun Chengyu</i> (27)
The imaging and interpretation of reflection waves in crosshole seismic data	<i>Yan Yousheng et al</i> (36)
Surface-layer correction algorithm for multicomponent data in anisotropic medium	<i>Zeng Xinwu and Wang Xiaozhen</i> (42)
The method for viscoelastic parameter determination using seismic wave and its application example	<i>Di Qingyun and Wang Miaoyue</i> (51)
Quantitative analysis of elastic parameter informations contained in AVO of sea-bottom multiwave multicomponent seismic data	<i>Gu Hanming et al</i> (56)
Constructing a potential field conversion system by spline function	<i>Yu Zenghui and Wang Shuoru</i> (64)
Canonical decomposition of magnetotelluric impedance tensor and its application	<i>Yin Bingxiang and Song Weiqi</i> (70)
The logging and seismic information characteristics of Carboniferous gas reservoir in Sapingchang area in east Sichuan basin	<i>Zhang Delin</i> (76)
A method for wave impedance inversion in wavelet domain	<i>Wang Xiwen et al</i> (89)
• EXPERIENCE •	
Application of wavelet transform to instantaneous phase analysis	<i>Bai Didong and Fan Zhenxiang</i> (97)
Imaging technique of seismic data from complicated steep-structure area in east Sichuan	<i>Le Xiaotao et al</i> (102)
Application of comprehensive reservoir description technique to complicated fault-blocks in Jiangsu XWZ area	<i>Wu Yijie et al</i> (111)
Oil-water layer recognition method for Gaotaizi low resistivity reservoir in Dalao yefu oil field in Jilin Province, and its application	<i>Hou Junsheng et al</i> (119)
The variations of wave velocity, attenuation and permeability in sedimentary rock with pressure	<i>Liu Bin et al</i> (129)
• NEWS •	
CPS Geophysical Exploration Committee's schedule of academic discussion in 2000	(136)
• PERSONAGE •	
Geophysicist <i>Xu Changlian</i>	(insert 1)
Contributors	(138)

No. 2

- Essential characteristic of elastic waves in ocean bottom multicomponent
seismograms *Wang Weijia* (139)
- Reflection-free wave equation modeling and its application
..... *Wu Qingling et al* (147)
- Structural stress field numerical simulation for fracture zone prediction
..... *Zhang Fan et al* (154)
- 3-D Cokringing and dominant content subsidence; a new method for improving
reservoir parameter interpolation by using seismic data *Ma Yunqian et al* (164)
- A method for formation pressure prediction using seismic and logging data
..... *Peng Zhenming et al* (170)
- Noise wave investigation using box wave test *Ling Yun et al* (175)
- Theoretical research of noise waves resulting from dynamite point-source
..... *Xiao Jianhua et al* (185)
- Theoretic model of low-frequency ultrasonically induced-polarization electric
field in borehole *Zhou Chengdang and Yang Tiyan* (193)
- 2-D gravity forward formula showing density variation with depth
..... *Zhang Jianzhong et al* (202)
- Stochastic conjugate gradient inversion *Zhu Peimin et al* (208)
- Seismic parallel processing application framework based on design pattern
..... *Wang Honglin and Gao Huisheng* (214)

• EXPERIENCE •

- Hydrocarbon reservoir prediction using fuzzy neural network *Xiong Yan et al* (222)
- Application of seismic formation inversion to compact-sandstone gas reservoir
description within west Sichuan *Xie Yongliang et al* (228)
- S/N ratio and resolution improvements using joint array effect
..... *Fu Chaokui et al* (236)
- Random noise attenuation using prestack dominant-component reconstruction
..... *Li Weizhong et al* (224)

• DISCUSSION •

- Considerations of geophysical exploration in West China
..... *Xiong Zhu* (257)

• PERSONAGE •

- Geophysicist *Sun Jianguo* (insert 1)

• NEWS •

- 1998 total citation of *OGP* and its position in all scientific and technical
journals of China (146)
- Thesis collection for 10th Academic Meeting of South China Oil Geophysical
Exploration (184)
- CGE of CPS, the schedule of 2000 Geophysical Events (271)

• NEW BOOK •

- Software Platform Technique for Geophysical Exploration* (221)
- Contributors (272)

No. 3

- Coherent signal prediction using mid-value correlative filtering *Wang Weihua* (273)

Maximum-energy prestack depth migration of plane wave	<i>Sun Peiyong and Zhang Shulun</i> (283)
Multi-resolution decomposition and compression of wave-field extrapolation operator	<i>Zhang Haijiang and Liu Wenlin</i> (290)
Obtaining the high-resolution filter operator in wavelet domain	<i>Wang Xiwen</i> (298)
Square-array noise wave investigation and the application	<i>Zhan Shifan and Ran Xianhua</i> (307)
A method for long-wavelength static correction	<i>Dai Yun and Zhang Jianzhong</i> (315)
Research on lithologic trap in Carboniferous system in east Sichuan basin	<i>Huang Ping et al</i> (326)
Design of bin-divisible 3-D seismic layout	<i>Zhao Shengbin</i> (333)
Coherent processing of 3-D seismic data in Xinchang, Dongtai and Hexingchang areas, and the application	<i>Yang Zhenwu et al</i> (339)
Comprehensive geophysical exploration technique in Yupize area of Lichuan City and its application	<i>Yang Zhenwu et al</i> (346)
Development tendency of non-seismic exploration techniques	<i>He Zhanxiang</i> (354)
• EXPERIENCE •	
A method for complex sand reservoir thickness estimation using geologic and seismic data, and the application example	<i>Ji Yuxin et al</i> (361)
Principle and application of automatic spatial correction using varying velocity	<i>Mou Zhonghai et al</i> (366)
Stratigraphic sequence division using log and seismic data	<i>Zhang Zhansong et al</i> (372)
A method for synthesizing seismogram in depth domain	<i>Zhang Xuejian et al</i> (377)
A new method for velocity mis-tie correction	<i>Chen Zunde et al</i> (381)
• SUMMARIZATION •	
Summarization of seismic exploration in carbonatite hilly area in Sichuan Province	<i>Xu Jianbin et al</i> (386)
• DISCUSSION •	
Discussion on the application of natural gamma spectrometry log to reservoir prediction	<i>Zhang Jinglian et al</i> (395)
• PERSONAGE •	
Geophysicist <i>Wei Xiucheng</i>	(insert 1)
• NEWS •	
CGE of CPS, senior geophysicist meeting, Qingdao City	(282)
Profound mourning for the death of famous geophysicist Mr. Tianting dong	(289)
Soliciting articles for 2000 SEG/SPG Geophysical meeting in Shenzhen City	(401)
Contributors	(402)
No. 4	
Application of OpenGL technique to seismic data visualization	<i>Zhu Yaping et al</i> (403)
Moveout and constant phase corrections, along with weighted stacking	<i>Li Hequn and Zhou Xingyuan</i> (415)
Description methods for some kinds of hydrocarbon reservoirs, and their application examples in Jiyang depression	<i>Zhang Shanwen et al</i> (419)

Separation of fast wave from slow wave and its application to fracture detection	<i>Li Yanpeng and Ma Zaitian</i> (428)
Application of high-resolution 3D development seismic acquisition technique to Tai No. 190 area	<i>Jiang Lianbin et al</i> (433)
The choice of optimum charge and coupling condition in high-resolution seismic exploration	<i>Pan Wenfeng et al</i> (443)
One method for frequency-division obtainment of instantaneous characteristics of seismic signals in wavelet domain, and its application	<i>Wang Xiwen et al</i> (452)
The origin of Mesozoic-Cenozoic extension-torsional fault system in the north positive element in the Tarim basin, and its role in accumulating oil and gas	<i>Yang Chunlin et al</i> (461)
Balanced section and tectonic evolution in the Dongpu depression	<i>Su Hui et al</i> (469)
Discussion on some problems in gravimetric data correction in hilly area	<i>Yang Hui et al</i> (479)
Application of finite-element direct iteration algorithm to MT 2D forward computation	<i>Chen Xiaobin et al</i> (487)
• EXPERIENCE •	
Application of Yu wavelet to seismic data processing	<i>Cai Xiling</i> (497)
Computation of seismic travel times in transversely isotropic medium	<i>Deng Huaqun and Liu Wenlin</i> (508)
Detecting the formation fractures in Yancheng depression by analysing the four-component VSP data of S-wave source	<i>Dong Liangguo et al</i> (517)
Comprehensive restrictive inversion technique and its application to lateral reservoir prediction in Gaoyang 3D exploration area	<i>Chen Gang et al</i> (527)
Sand content prediction for Guantao formation in Miaobei area	<i>Fu Guoqiang et al</i> (532)
A novel global-optimized inversion method	<i>Fu Dandan et al</i> (536)
• NEWS •	
OGP's 1998 influence factor and position in China's important scientific and technical journals	(507)
SEG Beijing Office, short-term training class of shear wave exploration, Zhuozhou City in Hebei Province	(531)
Contributors	(544)
No. 5	
50 years of technical progress in land petroleum seismic exploration	<i>Zhang Dezong</i> (545)
Tomographic inversion of first break in surface model	<i>Li Luming et al</i> (559)
Seismic event detection based on wavelet analysis and CB shaping filtering	<i>Shi Yumei et al</i> (565)
Acquisition technique test Huangshi region of Qaidam Basin	<i>Cao Guoqiang et al</i> (571)
Mathematic method for quantitative automatic identification of logging microfacies	<i>Ma Shizhong et al</i> (582)
Seeing a structural type in Yingge Sea from fault depression and depression structure	

in Chinese continental basin	<i>Zhao Songhua and Yang Kesheng</i> (590)
Time-depth conversion model of two-layer medium	<i>Liu Haiping</i> (600)
Fine processing and effects analysis of MT data in mountain region	<i>Zhang Xiang et al</i> (603)
Dip "Flat spot" and its generating mechanism in Dazuiqi gas accumulation	<i>Zhang Delin</i> (608)
• EXPERIENCE •	
Discussion on deep gravity field and Cenozoic structural system in Qinghai-Tibet plateau	<i>Yang Hui and Wang Yichang</i> (617)
Transient electromagnetic response to a 3-D thin plate in a layered earth	<i>Tang Xingong et al</i> (628)
Determine forming period of pressure seal for undercompacted shale cap and its meaning by using interval transit time data	<i>Fu Guang et al</i> (634)
Research on partial selecting operation of genetic algorithm(GA)in integrative global optimization	<i>Lin Yihua</i> (641)
Application of 3-D brick wall geometry in Caracoles Block, Venezuela	<i>Wang Yongmin et al</i> (651)
High-resolution reservoir integrated predicting technique for thin sand-shale interbedding	<i>Shi Yongmin</i> (661)
Prospecting for sand-gravel body in northern steep slope of Dongying depression	<i>Kong Fanxian</i> (669)
